The reissue oath/declaration filed with this application is defective because it fails to contain the statement required under 37 CFR 1.175(a)(1) as to applicant's belief that the original patent is wholly or partly inoperative or invalid. See 37 CFR 1.175(a)(1) and see MPEP § 1414. It is not sufficient to merely state "by reasons of other errors" and citing column 3, lines 57 and 58.

The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:

The original patent, or a statement as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed. See 37 CFR 1.178.

Each amendatory change, when first submitted, must be accompanied by an explanation of the support in the disclosure of the patent for the change (along with any additional comments) on page(s) separate from the page(s) containing the amendment. See 37 CFR 1.173 (c). Also, no amendment to the patent may introduce new matter as set forth out in 35 USC 251 (and as cited in 37 CFR 1.173(a)).

No support can found in the original disclosure nor any explanation of support is provided for the underlined changes to claim 1 as well as naming element 34a a clamp block.

The amendments to claims 3 and 5 are not in compliance with 37 CFR 1.173(b)(2) since subject matter being added to an original patent claim must be underlined and all subject matter being deleted from an original claim must be placed

between brackets. See claim 3, where after "support" a closed bracket is missing and in claim 5, where "t-shaped" should only be bracketed.

In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

Claims 1-13 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defect is set forth above.

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tim Heitbrink whose telephone number is 571-272-1132. The examiner can normally be reached on Tuesday-Friday 5:30-4:00.
